Experience

Paul Anthony Jones is an architect and practice director with more than twenty-five years of metropolitan, regional and international experience. His work spans residential, commercial, industrial, educational and civic projects, combining architectural design with planning, project advisory and building consultancy.

Paul established Oceanarc Architects based in Byron Bay, a principal-led practice that assembles specialist collaborators according to the needs of each commission. This flexible model provides direct senior involvement together with the breadth of expertise required for projects of varying scale and complexity.

Professional Employments

- Aukett Associates Architects London (now Aukett Swanke)
- Denton Corker Marshall Architects Melbourne
- Graham Ormsby Heritage Architects Sydney
